## Deutch Speaks This Evening On Czechoslovakia

**Will Clarify Student Minds  
About Czech Survival  
Hopes**

**Envoy of Czech Students  
Will Be Principal Speaker**

**Many Expected to Attend;  
Open Forum To Be  
Held**

Dr. Karl Deutch will discuss the question: "Will Czechoslovakia Survive?" in a lecture to be held in room 6-125 at 5:00 o'clock tonight. The meeting is sponsored jointly by the T.C.A. and the Technology Peace Federation.

Although this question seems to have been answered by the events of the last ten days, Dr. Deutch will be able to give additional information, pointing out the significance of the new changes in the European map.

Lecturer Sudeten German

The lecturer was born in Sudeten Germany and is 26 years old. He attended a German high school, and then went to the German University in Prague, and later to London University. He received his Ph.D degree in Law and Political Science in July, 1933. Dr. Deutch has been very active in student and youth movements

## Hedlund Warns '42 of Possible Defeat by Sophs Field Day

**Managers Report Deficiencies  
in Turnouts; Class  
Spirit High**

Gloomy prospects are before the class of '42 unless they show more activity for Field Day, warned Oscar Hedlund at the freshman rally last Wednesday.

Speaking before approximately 150 freshmen at a rally in 10-250, Technology's track coach emphasized that not enough men were turning out for the various sports, and that if the class of '42 expected to win Field Day from the heretofore victorious Class of '41, the various teams must have a large number of good men from which to choose.

Greene, Wright, Goodman Speak  
William T. Greene, '40, followed

Freshman Rally

## Smoker Preferred To Rally by Frosh

**30 Duck Class Gathering to  
Hear Voo Doo Talks**

Although, as a result of the freshman rally, the attendance at the Voo Doo Smoker held in the Walker Faculty Room was less than originally expected, at least thirty of the freshmen showed up. After complimenting them for preferring work on the Voo Doo to the rally, Robert Casselman, Voo Doo's general manager, proceeded to introduce the various department heads, who explained the magazine's work.

The young candidates then heard that funny stories are ground out at night amid much cigarette smoke, that black ink and white paper make a cartoon if you have an idea and

## Tech Golf Team to Start Season With Large Rally

Swinging into action with a general rally for Varsity, Freshmen and managerial candidates in Room 1-190, the Tech golf team will open its 1938-39 season's activities tonight at 5:00 P.M.

The chief problem to be met at this rally deals with the task of filling the ranks of the golf squad with new material since no letter-

## New Wind Tunnel Hits 400 M. P. H.

**Wright Brothers Structure  
Gives a Wide Range  
of Conditions**

Operating at air speeds up to 400 m.p.h., the newest of Technology's wind tunnels, named after the Wright Brothers, was dedicated at the recent session of the Fifth International Congress for Applied Mechanics, held at the Institute.

President Karl T. Compton pressed the button which set the tunnel in operation for the first time.

Seventh Institute Tunnel

The structure, the seventh wind tunnel to be built here since 1913, when the Institute opened the first aeronautical engineering course in the country, provides a wide range of working pressures in addition to the high air speeds. Pressures ranging from one-quarter of an atmosphere to four atmospheres can be obtained, enabling the Course XVI men to simulate conditions in full flight from sea-level to an altitude of 37,000 feet.

About 300 delegates to the Congress attended the dedication ceremonies. The principal speaker, Mr. Griffith Brewer, a member of the Royal Aeronautical Society of Great Britain, was introduced by Dr. Godfrey L. Cabot, life member of the Institute Corporation.

## Weaver Adams To Be At Chess Club's Meet

Weaver Adams, chess champion of Massachusetts, will be present at the mass meeting of the Technology Chess Club to be held Saturday afternoon at one thirty in the Walker East Lounge.

At this meeting, to which all interested in playing chess are invited, the purpose of the club will be explained, and students will be registered for the intracub bumping-board tournament and the intercollegiate team. A faculty member will speak on the facilities offered to players, and

## Swing Subject Of Tech Debate With Radcliffe

**Girls Cite Originality of the  
New Jazz in Spirited  
Defense**

**Demoralizing Effect Decried**

Twisting swing slang to suit their individual purposes, and hurling insults concerning the intelligence of disparagers or upholders of swing respectively, Radcliffe and Technology last night debated the question: Resolved, "That Swing Music Is Detrimental to American Culture."

Upholding the affirmative were Radcliffe's two speakers, Margaret O. Morin and Ann Pollock, while Paul M. Erlandson, '41, and Stanley Backer, '41, argued the negative for Technology.

Swing: to Hang

Opening his address with "Members of the intelligentsia and jitterbugs", Erlandson went on to say, "You can't say swing and music in the same breath and have any meaning." Consulting Webster for a definition of swing, he found that swing means to "wield as a weapon" or "to hang or be executed", and remarked that the definition was quite apt if the execution of old classics on conversion into swing was noted.

He mentioned as examples of encouragement of bad English by swing, the substitution of "plumbing" for trumpet, "slushing the slosh" for playing the trombone, "voodoo bellers" for drums, and "monkey handler" for organist. After remarking on the increased use of marihuana as a result of swing fever, Erlandson made his

## Dramashop Rehearsal of New Presentation Will Begin October 9

**Production 'Outward Bound'  
To Be Presented on  
November 18**

The first major production of Dramashop, "Outward Bound," will go into rehearsal Sunday, October 9. The play, under the direction of Professor Dean M. Fuller, is scheduled for presentation on November 18, in Room 2-190.

Tryouts for the production were held on September 28 and 29, and the following cast was selected: Scrubby, Albert C. Rugo, '39; Ann, Margaret Whitcomb, '39; Henry, Martin R. Erickson, '40; Tom, Chester W. Ross, '39; Mrs. Cliveden-Banks, Frances G. Emery, '40; Duke, Kingsbury T. Jackson, '40; Mrs. Midget, Fran Blackwood; Linsley, Raymond G. O'Connell, '41; and Reverend Thomson, George Moore, '39.

Plot Unusual

The play has an unusual plot which concerns a group of travelers embarked on a mysterious boat trip, none knowing exactly where they are going. The action centers around the individual reactions of the characters when the truth dawns upon them that they are on a voyage to Hell.

Under a shower of peanuts, the members of Dramashop produced an abbreviated version of "Ten Nights" (Continued on page 4)

## Radcliffe to Go Canoeing With Outing Club Freshmen

To introduce freshmen to the pleasant side of the Institute life, the Outing club plans a canoe trip for them with the Outing Club of Radcliffe. For the older and more experienced members of the club, there is to be a trip to Mount Washington this weekend.

Swing Band Leader

Glenn Miller

## Beaver Key Gets \$187 For Sports

**Appropriation Excites Most  
Heated Debate of Year  
Over Amount**

A motion to give the Beaver Key Society \$187 for intermural sports from the Institute Committee reserve and contingency fund precipitated the most heated discussion of the year at the Committee meeting last night. The motion was proposed by Nicholas E. Carr, Jr., '39, and arguments in its behalf were given by Stuart Paige, '39, and Robert C. Casselman, '39.

Motion Vigorously Opposed

Vigorous opposition to the measure was voiced by Oswald Stewart, II, '39, chairman of the Budget Committee, who said that a drain on the reserve and contingency funds would handicap the Institute Committee in case of emergency. Stewart proposed that the motion be amended to make the amount \$100, but his proposal was voted down. The first motion, which ear-marked \$187, was finally carried.

Poster Regulations Approved

In last night's meeting the Walker

Inst. Comm.

## Sophomores Gather to Hear Pep Talks

**Hedlund and Greene Address  
Second-Year Men**

Sophomores, 125 strong, rallied yesterday in 10-250 at 3:00 P.M. Despite a disagreeable odor which permeated the entire lecture hall, the second-year men showed their spirit by starting the proceedings with the famous "Highly-tighty."

John B. Murdock, Sophomore class president, started the meeting with a plea for all men to come out for some Field Day sport. He then introduced Oscar F. Hedlund, the Institute Track Coach, who delivered a few scathing remarks about Sophomore class spirit.

Bill Greene Speaks

Professor William C. Greene, the next speaker, forecast defeat for the Sophomores, because he had also addressed the class of '40 last year and they consequently lost Field Day.

## Glenn Miller And Nye Mayhew Are Chosen

**Tickets Go On Sale Monday  
For Student Body  
In Main Lobby**

First of the big four formal dances on the Technology calendar, the second annual Field Day Dance will be held in the Imperial Ballroom of the Hotel Statler on Friday evening, October 28.

Novelty of the affair will be a modified version of the "battle of music" representing the swing faction, Glenn Miller will play from time to time through the evening, the remainder being taken up by Nye Mayhew's sweet rhythm. Dancing will continue from nine until three. In the reception room adjoining the Ballroom ample bar facilities will be provided.

Sales Start Tonight, Monday

Tickets, at a total price of four

(Continued on page 4)

Field Day Dance

## Freshman Elections Will Be Conducted Thursday and Friday

**Nominations to Be Held on  
Previous Monday and  
Tuesday**

Elections for representatives to the freshman council will be held Thursday and Friday of next week. Before the elections the nominations will take place on Monday and Tuesday of the same week.

The procedure to be used will be the same as in past years. A Junior will visit each of the sections during classes on the nomination and elections days. Each section will be allowed to nominate as many candidates as they wish, and from this number, one representative and one alternate will be chosen from each section.

Representative Picked

After the 25 freshman representatives are picked, they will choose from their number one person to be their representative on the Institute Committee.

## Boy's Work Subject at Dinner of T.C.A.

In order to acquaint interested new men in their boy's work, the Technology Christian Association will give a dinner next Monday evening at six o'clock in the Faculty Dining Room.

The prospective workers will be addressed by Lieutenant Carey of the Boston Police Department, who is noted for his recent organization of a Junior Police Force; and by Boy's Club leaders from Charlestown and East Boston, since the principal work of those who engage in this branch of the T.C.A. work is to lead boys' organizations.

Kahn in Charge

Walter Kahn, '40, who is in charge of the affair, said that between forty and fifty freshmen are expected to attend.

## ARE YOU INTERESTED IN PLANS FOR PEACE?

Starting out late last year, the Technology Peace Federation had less than a fair chance to get itself recognized among students as the strong and unbiased group that they hope to be. The very fact that they have had the strength and the stamina to continue through the summer and be able to sponsor a speaker this year is an encouraging and welcome sight to those of us who are anxious to hear proposed solutions for preserving Peace.

The turnout for this first public gathering will be an index by which we can judge the probable success of this Peace Federation. If they have aroused enough interest among students, they will no doubt grow and be an important factor in political thought in the Institute. They have done a good job on the publicity, time will tell how good.

Tonight at five o'clock, by the numbers who come to hear Dr. Karl Deutch speak on "Will Czechoslovakia Survive?" one can judge whether the Peace Federation is a small group on a side-track or representative of Technology's student thought.

## ACTIVITIES SUPPLY THE HUMAN ELEMENT

Ever since the freshmen first showed themselves here at the Institute they have been showered with speeches and arguments in favor of joining activities outside of their required curriculum. To many of them, it may seem to be over emphasized, but the benefits that may be realized far outweigh the time and energy that is spent. Our arguments may be an old story, but we think this may be a new slant.

After almost every assignment, either written or spoken, or plainly understood is the precaution, "This work is intended to be done individually." The training from such work is then narrow to the extent that it teaches men how to work by themselves. This training is necessary to men who will have to work alone in industry, but it does not take into account the fact that after graduation there will be few jobs which are not mainly problems of getting along with other people.

Men who enter into the spirit of our activities here at Technology will have a truly marvelous chance to learn to work with other people. When Institute graduates apply for jobs, their diploma tells their boss how well they know their stuff, but they

themselves must tell the men with whom they are going to work, if they are going to keep their jobs.

Many students spend their summers trying to become accustomed to industrial practices, in both personal and engineering aspects, and they can well continue this course during the winter. The activities do not pretend to take the place of industry in training men to be human, but almost every phase of business can be found among them. The technique necessary for overcoming small problems that are bound to turn up after graduation can be mastered with little risk in the activities, while life itself might be at stake in industry.

Activities are the fit supplements to your course at the Institute, do not pass up this opportunity to join them.

## WHO? — — — ME?

When it comes to describing the college man of 1938, so many and varied are the paragraphic portrayals that he is at once a master-mind and a dolt, a play-boy and a great student. None has so brilliantly painted the picture as Kent State University's Dean R. E. Manchester, who sets the man-of-the-campus on his pedestal in the following manner:

"The college man is a living paradox. Most people cannot understand him and those who do, come to their conclusions by indirect proof. He talks of the future but worships the past. He is liberal in his conversation but conservative in his action. He is radical in his opinions on politics, but elects stand-patters to the class offices. He demands freedom of thinking but defends with all his strength the traditions of his institution. He takes wild stands on religious theories yet attends college and universities that are created and maintained by orthodox creeds. He preaches democracy yet supports the most rigid campus caste system. He demands that his university maintain the highest athletic standards yet in the same breath also demands a professional football team. He scoffs at his profs yet defends them strenuously when they are criticized. He rebels against rules but sets up more rigid ones when given the opportunity. He hazes the high school graduate who comes with a boy scout badge on his coat, but he covers his own vest with medals and keys. He invents and uses the most outlandish slang on the street, but reads and writes pure English in his room. He clamors for self government but doesn't want it after he gets it. He laughs at convention but insists upon it. He cuts classes the day before a vacation but comes back three days early.

"You ask 'What are we going to do about it?' We are going to praise the Lord that we have him and that he is just what he is, a walking contradiction of himself." Like it? We thought you would!

By Associated Collegiate Press

## Collegians

### Dine & Dance

The Shelton has been New York Headquarters for college men and women for years... and there's a reason. The Shelton provides club facilities, without dues. You can relax in the solarium or the library, work-out in the gym, use the game room, and take a dip in the famous Shelton pool, all these features without any charge other than that for your pleasant room. The Shelton's unique location—on the edge of the Grand Central Zone—makes it a convenient point for all of New York's most interesting places. A well known orchestra plays nightly in the Shelton Corner for dinner and supper dancing.

Daily Rate for Single Room with Private Bath—from \$3 a Day.

## SHELTON HOTEL

## Reviews and Previews

**WHAT A LIFE**—After two studious weeks of slide rule pushing, your reviewer cast off the shackles of engineering and science for an evening, and attended *What a Life*, now in its fifth week at the Wilbur. In spite of lavish expectations, he was not at all disappointed. George Abbott's humorous treatment of high school youth is more than entertaining and funny; it is a revelation of adolescent psychology. "Eddie Bracken," as Henry Aldrich, is the unfortunate boy who sat behind you not so many years ago; perhaps you were more fortunate in getting out of boyhood scrapes than he, but this will bring back laughing memories of the carefree days when you played through classes.

Particularly impressing was the casting of Goldsmith's comedy. Particularly entertaining and authentic were Mr. Bradley, the headmaster; Barbara Pearson, as the childhood sweetheart; and George Bigelow, the too handsome, somewhat sinister young man who was finally revealed as the person who steals the Central High School band, a theft for which poor Henry, the hero, is accused. You'll roll in your seats with laughter and forget all your undone assignments when you visit *What a Life*, which begins its final week in Boston next Monday.

With Open Arms

Statisticians tell us when we take the trouble to ask them, and often when we don't, that the freshman of today is taller, more serious, more inclined to think for himself than was the wild and woozy frosh of ten years ago. It is a comforting thought. Having in our younger years belonged to the connoisseurs de la joie de vivre (Tech does that to your French), and having in more recent years been occupied in cleaning the grit out of the gears of the Institute which said convivialities produced when extended to the classroom, we sit back with an expression of rapt adoration regard the incoming class. In fact, if you live up to statistics (which is easier than living up to your folks' expectations).

**ABILITY** to serve you better is the reason for the Bell System. Its set-up is simple as A, B, C. ① American Telephone and Telegraph Company coordinates all system activities—advises on all phases of telephone operation—searches for improved methods. ② 25 associated operating companies provide telephone service in their own territories. ③ The Long Lines Department of the A.T. and T. Co. inter-connects the 25 operating companies—handles Long Distance and overseas service. ④ Bell Telephone Laboratories carries on the scientific research and development for the Bell System. ⑤ Western Electric is the manufacturing and distributing unit.

These Bell System companies, working as a team, give you the world's finest telephone service—at low cost.

# First Fall Meets On Saturday

## Booters Favored In Opening Game With The Bruins

### Strong Squad Including Five Sophomores Chosen for Providence Game

#### Red, Grey Boast Good Line

A strong soccer team will get its first test of the season tomorrow when the booters journey to Providence to entangle the Bruins.

#### Regulars Fight for Positions

Five sophomores are on the squad of fifteen which will leave the Institute, at 10 in the morning, for the game in the afternoon. In comparison to last years team the squad is much stronger, which was shown in practice by the constant fight given last years regulars for positions.

This was especially true on the line where three foreign students trained in the art of soccer hold down positions of Right outside, Right inside and Left outside. They are Collazo, Kirman and Miller respectively. Alex Laker, Captain of this year's team holds down the key position of center forward. The other man on the line is Andy Carr at left inside. The five sophomores are Reglado at center half-back, Miller at Left wing, Kirman at right inside, Herguth at fullback and Samuels, substitute halfback.

The rest of the squad which was chosen from the large turnout of over forty are veterans Mitchell in the goal, Foster and Hadden at right and left halfback respectively, and Sosa at fullback. West and Wu hold down the substitution positions on the line.

#### Goldie Expects Good Season

Coach Malcolm Goldie is confident of a really banner season despite the hard schedule due for the team. If Luxon and Cochrane prospective fullbacks for this season had returned to school, M.I.T. no doubt would have boasted of one of the best teams in the east.

#### Frosh Open Next Week

The freshman team opens a week from Saturday against Governor Dummer Academy. Although there has been quite a large turnout for the freshman team there is still room for more men. Past experience is not needed as can be seen by some of the progress made by last year's freshmen who never played before coming to the Institute.

## Lounger

(Continued from page 2)

tions) you'll find us alongside of the rest of the Institute yelling "encore, encore."

This is not the official job of the Lounger, in fact, it's none of his business, but he feels that some explanation is due.

It seems that in a recent issue of this Illustrious Bulletin, a story was printed concerning an attempt by the dorm Sophomores to force upon their freshmen a bit of compulsory group chorals. From the discussion we have been hearing, the affair must have had at least the importance of a Presidential election. According to some of the Biased Opinion, the facts were grossly misrepresented. They were. In fact, there was a rank odor about the story. But we offer by way of extenuation the information that a Sophomore was given liberty to write it. 'Nough said.

#### Ideas for the Future:

When we were very young and almost freshmen we used to sit in on Saturday night Bull Sessions devoted to "How to Make the Front Page". We never did get around to carrying out the plans that drifted in and out of the window with the Swift Odors, but we're handing them along for what they're worth.

## Golf Rally

(Continued from page 1)

men will return from last year's team but the highlight of the evening will be the announcement of plans and schedules for the Annual Fall Tournament, which is to be staged immediately. Men who are interested in either the Varsity or freshman squads, or the fall tournament, but who are unable to attend the meeting are requested to communicate with the manager of this year's squad, Joseph C. Jefferds, Jr., '40. Matches have already been scheduled with Amherst, Williams, Colby, and other New England colleges, while a dual match between the Wellesley — Tech duellers holds the high spot in the link meets.

## Seating Arranged For Frosh Crew

### Frosh and Soph Crew Mgrs. Picked; Frosh Crew to Average 165 Lbs.

The time for the Field Day Sophomore vs. Freshman crew race has been set for 7:45 in the morning of Oct. 28. Both teams are working hard in anticipation of a hard battle and gradually the positions are becoming definite. Freshman and Sophomore managers have been picked in the personages of Bill Hense and Richard Owen respectively.

The tentative Freshman crew lineup is as follows:

Helm	Bow
Tarrington	No. 2
Thaneuf	No. 3
Anderson	No. 4
Shaw	No. 5
Smith	No. 6
Bowers	No. 7
Briggs	No. 8
Close	Coxswain

The average weight of the Freshman crew is 165 lbs. and the Sophomore crew will be much lighter to counteract the advantage they have due to more experience. Both teams will row lapstreak barges down a one-mile course starting at a point a little past the boat house and ending at a marker placed between the Harvard Bridge and the Sailing Pavilion.

Regular morning crew practice will start this Monday.

There is the elephant stunt of course. The idea is to procure a small elephant and a dorm room whose door is slightly narrower than the elephant. The elephant is starved for a few days until he fits the door, then taken into the room and stuffed. The owner of the room arriving late can be counted upon to be peeved.

Very concentrated dyes have various uses. We think it is Methylene Blue that we were going to dump into the pond in the Public Garden. The idea of seeing the swans swimming around colored baby's breath blue appealed to us.

#### Winter Preview

This dope was walking along one cold day with his right glove on his left hand and vice versa. Because he was left-handed.

## Harriers to Open Season Against Conn. State Men

### Powerful Squad To Be Tested At Franklin Field At Three Tomorrow

#### Dan Crosby Captain Of Team

Technology's cross-country team will tell off Saturday afternoon at Franklin Field when it meets Connecticut State at 3:00 for its first dual meet of the season. The varsity only will run, the Frosh team not yet having been whipped into shape. The lineup of this year's team comprises so far twelve men. Dan Crosby, '40, a star last year, will be captain with the following men to complete the cross country's roster. Ed Lemanski, '40; Lawrence Turnock, '41, Jack Wallace, '41, Alvin Guttage, '40, Vic Corsa, '41, Lester Gott, '41, P. R. Toolin, '39, Stanley Backer, '41, Chester Ross, '39, William Wood, '40.

The five sophomores represented on the team were all outstanding members of last year's successful freshman cross-country team and promise to be a huge factor in bolstering up Tech's high hopes. When the starter's gun cracks, all twelve men will cross the line, but only seven will count for points. Coach Oscar Hedlund has not as yet released the list of those who will add to the score. However, he did announce that serious practice for Field Day Relay and Track teams will start Monday.

#### Lounger's Lounging

It is with the greatest of sorrow that we report the loss of an old friend, not The Old Friend, he will still be with us, but the former Lounger. He has finally resigned his position, having gone back to his home town to lounge until he is offered a job. Therefore this column will probably be in a state of flux until the present incumbent becomes accustomed to his job or is replaced. But remember, Loungers come and Loungers go, but the Lounger drifts on forever. Long Live the Lounger!

#### Still Coeds

Much as our conscience hurts us to inflict this upon you we have still another coed story, of not much use except to show that even Juniors are still in a state of arrested development.

Anyhow, the first 5.61 lecture of the year had just started when the door opens and in walks a Coed with her hair done up in the New Fashion. Three hundred sixty eyes turn to the door and a hundred eighty lips produce a long drawn out whistle. The coed finally found a seat.

Comes the second lecture just begun, the door opens, the same Coed walks in, the same performance is repeated. Thereafter, it is observed by those who notice things, she is almost the first one in his (her?) seat. There is no moral.

## More Material Needed for Sophomore Football Team

An important Sophomore football scrimmage will be held this afternoon at 4 o'clock on the Tech field. All Sophomores who have drawn uniforms are expected to be present. Interested men who have not yet reported see coach Jackson E. Wignot, '39, or report for practice today. New material is badly needed.

## Intermural Football Is Still Unorganized

### Only One Team Has Game Set for Weekend

By interviewing several managers of the intermural football teams, it has been discovered that the arrangements for the coming contests are only slowly shaping up.

One participant alone reports an organized team and scheduled game for this week-end. No other contestant states a game date, and only a few have had any drill or practice. However, most of the managers have made tentative adjustments in uniting their teams, and expect to contact their opponents immediately concerning the time and place of the games to be played.

Despite this, next week-end is bound to be overcrowded with the contests if they are conducted within the time requirements. The only other alternative would be to hold some of the games during the middle of the week if the teams involved can find a time that is mutually convenient.

## Nautical Association In Cohasset Y.C. Race

### Technology Sailors Announce Autumn Racing Schedule

The first intercollegiate race of the 1938 fall season of the Nautical Association will be with the Cohasset Yacht Club on Tuesday, October 11 at 3:00 P.M. at the Pavilion.

The remainder of the schedule has been tentatively announced as follows, but is subject to change at any time:

- October 12 — Boston Dinghy Club vs. M.I.T.
- October 15 — Army, Navy, M.I.T.N.A. Triangular Regatta.
- October 16 — Charles River Yacht Club vs. M.I.T. Grads.
- October 23 — Harvard vs. M.I.T.
- October 28 — Field Day — Freshmen vs. Sophomores.
- October 30 — Boston Dinghy Club Cup Regatta.
- November 6 — Brown vs. M.I.T.
- November 11 — Brown University Yacht Club Invitation Regatta.
- November 13 — Quadrangular Regatta at Tech.

Formal Races in the First Fall Series will be continued this Saturday and Sunday. Shore school will be continued for about a week and a half more, from 5-6 P.M. at the Sailing Pavilion.

### Field Day Dance

(Continued from page 1)

dollars, go on sale in the fraternity group tonight, in the Dormitories on Monday night, and in the Main Lobby on Monday.

In charge of arrangements is Thurston S. Merriman, '39, who is aided chiefly by a committee of Juniors. W. Happer Farrell is in charge of fraternity sales, Edward M. Wallace and Norman R. Klivans of Dormitory sales. Edward D. Crosby will manage technical details, and L. Hurley Bloom is handling publicity. A Sophomore group will help in the sales campaign.

#### Played at Soph Dance

Miller, latest of the men behind the scenes in favorite dance bands to turn leader on his own, was formerly composer-arranger with such organizations as Benny Goodman, Tommy Dorsey, Jimmy Dorsey, Ray Noble, and Glen Gray.

His band is now rapidly becoming one of the most popular of the swing makers. After appearing in large dance spots throughout the East and South, Miller spent a long engagement with the Paradise Cafe, broadcasting every day over the Mutual system. He has been rated among the top three in swing by professional magazines, and already has a large following at Technology, gained at last year's Sophomore dance.

#### Mayhew Statler Fixture

Even more familiar to Technology dance fans is Nye Mayhew, whose return to the Statler on Field Day will be somewhat of a homecoming. Mayhew has spent the past two winter seasons at that hotel. He will specialize on this occasion in the more conservative dance numbers for the benefit of the large group who still prefer graceful dancing to the "let-yourself-go" type of music.

After spending the summer of 1937 at the Glen Island Casino, Mayhew had reached the fame which seems to follow all graduates of that suburban New York resort. Among his fellow alumni are the Dorsey Brothers, Guy Lombardo, Glen Gray, Ozzie Nelson, and Larry Clinton.

### Dr. Deutch

(Continued from page 1)

since 1927, being, at the present time, vice-president of the Democratic Youth Movement in Czechoslovakia, and is also vice-president of the Democratic Youth Organization of Prague. He left his country only two months ago and spoke with considerable authority on the situation there to the World Youth Conference at Vassar College recently.

### Freshman Rally

(Continued from page 1)

the coach's prophecy by further announcing that more men were needed for crew practice; H. Garret Wright, '40, asked for more football players; David R. Goodman asked for more tug-of-war men.

Many Freshmen responded to the calls of their Junior coaches, and volunteered for participation in the various events after the meeting.

The meeting was concluded with cheers and the Stein Song.

### Inst. Comm.

(Continued from page 1)

Memorial Committee received the approval of the Institute Committee on its new regulations concerning posters. Under the new rules the main lobbies of the New Rogers Building, Eastman, and Walker Memorial are prohibited for solicitation as they are memorials.

Jack H. Schaum, '40, was approved as a member of the Student-Faculty Committee; the changes last proposed in the Senior Week Committee were passed; James S. Thornton, '41, Robert W. Blake, '41, and Wesley J. Van Seiver, '40, were appointed to the Freshman Rules Committee; John H. Anderson, G., was approved in regard to his appointment to the Elections Committee; and Robert A. Schmucker, '39, was approved as General Manager of the Combined Musical Clubs. H. Tyler Marcy, '40, presented the constitution of the Peace Federation which was turned over to a committee of Juniors.

### Professor Cowdrey Speaks to Menorah

Professor Irving H. Cowdrey, of the Mechanical Engineering Department, as guest speaker, gave an inspiring talk at the first meeting of the Menorah Society, held last Friday in the Walker North Hall.

Executive Chairman Bernard F. Greeberg, '40, outlined the schedule of activities for the coming year. Heading the program will be a binary dance with girls from Simmons College, set for October 15th in Walker. About forty persons were present, many of them prospective freshmen members.

### Chess Club

(Continued from page 1)

President Alfred J. Green, '40, will describe the lessons to be offered beginners.

### Dramashop

(Continued from page 1)

in a Barroom" at their freshman smoker Wednesday evening in 2-190.

#### New Members Welcomed

New members were welcomed by Vernon G. Lippitt, '38, president of Dramashop, and were invited to try out for membership. Afterwards, the group was served cider and doughnuts, and then all joined in a half hour of community singing.

### Voo Doo Smoker

(Continued from page 1)

can draw, and that the makeup department does the final editing anyway, so why go anywhere else.

#### New Men Learn Details

Later, the department managers talked more seriously to the particular men interested in their respective duties. The new men found out the details of the particular work they were interested in.

### New Men Introduced To Four Publications

#### The Tech, Voo Doo, T.E.N., Technique Are Listed

The purpose of this article is to acquaint the newcomer to the Institute with the various publications of Technology. With this thought in mind, let us proceed to first take each of the four major publications in turn, and explain them fully as to when they come out, and how often, their contents, and their make-up.

#### The Tech

The Tech is the official news organ of the student body of Tech. In it is contained as comprehensively as possible, all the news that relates to the Institute and to those related to it. This newspaper comes out twice a week on Tuesday and Friday.

#### VooDoo

VooDoo is the school's humorous magazine. In it are contained not only articles to tickle your funnybone, but also cartoons comic in nature which are usually drawn by the undergraduates and graduate students of Technology. This publication comes out once a month at dates previously announced and posted on the general bulletin boards.

#### Technology Engineering News

As its name implies, the Technology Engineering News deals with engineering problems. Its articles are written not only by those connected with the Institute, but also by experts in various technological fields. It is distributed in the same way as VooDoo.

#### Technique

Technique is M.I.T.'s year book, containing a complete resume of all activities, the Senior Class, the faculty, and so forth. It is in book form and is distributed at the end of the year.

### Debating Society

(Continued from page 1)

only concession to the value of swing on declaring, "there is one benefit to swing—if your phonograph's no good, it doesn't make any difference."

#### Swing is American

Miss Morin argued that the fundamental element of American culture is democracy, stressing freedom of speech, originality, and informality. She assumed the acknowledgement of the informality of swing, and quoted Robert Tillford in Etude on the originality of swing as saying, "X music (swing) is music of unknown quantity and quality . . . it is the background on which his (the player's) talents permit to embroider whatever he will."

She declared that swing has "given us, not only new music, but new musical geniuses." She went on to remark, "People condemned Wagner's music as they do swing today."

Miss Pollock, in arguing what constituted American culture, declared that a cultured person keeps his mind open so that he can judge everything. Backer revealed that seventy two percent of ordinary band players are victims of the marihuana addiction, and commented apropos of the credulity of this, "Where did swing have its origin if not in the 'jungle'." Technology also called attention to the passion provoking qualities of swing.

The debate was concluded without a decision. The first meeting of the debating club will be held on Monday, October 10, at five P.M. in the West lounge.

### The First Church of Christ, Scientist

Falmouth, Norway and St. Paul Sts.  
Boston, Massachusetts  
Sunday Services 10:45 a. m. and 7:30 p. m.;
